

**LIPPINCOTT CME INSTITUTE
CONTINUING MEDICAL EDUCATION ACTIVITY**

AUTHOR'S INSTRUCTIONS/DISCLOSURE

CONTEMPORARY NEUROSURGERY Volume Number

To ensure compliance with ACCME Essential Areas and Elements and the ACCME Updated Standards for Commercial Support (2004), please read all three pages, complete the information and sign on the second page, and return this form.

- 1) **Content Validation**—As an organization accredited by the ACCME, LCMEI subscribes to the ACCME Essential Areas and Standards for Commercial Support. LCMEI is responsible for the content, quality, and scientific integrity of all activities certified for credit. All recommendations involving clinical medicine in your article must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research that you refer to in your article that supports or justifies a patient care recommendation must conform to the generally accepted standards of experimental design, data collection and analysis.

- 2) **Fairness and Balance**—Your article must give a balanced view of therapeutic options. Please use generic names for pharmaceutical/medical device products or services mentioned in your article. If you use trade names, please use those of several companies' products or services, rather than only that of a single company.

- 3) **Off-Label Use/Unapproved Drugs or Products**—If your article discusses an unlabeled use of a commercial product or an investigational use of a commercial product not yet approved by the FDA for any purpose, you must disclose in the article that the product is not labeled for the use under discussion or that the product is still investigational. Please initial below:

 ___ I plan on discussing unlabeled/investigational uses of a commercial product and will disclose this to the audience.

 ___ I do not plan on discussing unlabeled/investigational uses of a commercial product.

- 4) **Learning Objectives**—Please provide us with ___ key learning objectives for your article. The set of objectives should begin with the phrase, " After reading this material, physicians should be able to..." followed by your learning objectives. Please try to use action verbs, such as "describe," "define," "discuss," etc. Please find enclosed a copy of Bloom's Learning Outcomes (Bloom's Taxonomy) to aid you in developing specific and measurable learning objectives.

- 5) **CME Quiz Questions**—In keeping with our continuing medical education mission, this activity will contain a quiz to be filled out by physicians seeking credit for participating in this activity. Physicians participating in the activity and successfully completing the quiz will be eligible to receive AMA Category 1 credit toward the AMA Physician's Recognition Award. Please provide us with ___ multiple choice and/or true-false questions (and answers) based on your article.

- 6) **Financial Disclosure**—This publication contains an independent continuing education activity that may or may not be supported by an unrestricted educational grant from a commercial company. If you or your spouse/partner¹ have a relevant relationship with or financial interest² in any commercial company³ in any amount pertaining to this educational activity, please specify the company, the past/current status, and type of affiliation below.

PAST Relationship/Financial Interest (in any amount over the past 12 months)

(Must check applicable boxes, specifying the name of the company and the nature of your relationship; please consult the LCMEI Policy on Disclosure of Faculty and Commercial Entity Relationships for additional clarifications)

- Grant/Research⁴ _____
- Consultant/Advisor _____
- Speakers Bureau _____
- Stock Shareholder _____
- Other _____
- None (please initial if none)** _____

CURRENT/ONGOING Relationship/Financial Interest (in any amount, including any already noted above)

(Must check applicable boxes, specifying the name of the company and the nature of your relationship; please consult the LCMEI Policy on Disclosure of Faculty and Commercial Entity Relationships for additional clarifications)

- Grant/Research⁴ _____
- Consultant/Advisor _____
- Speakers Bureau _____
- Stock Shareholder _____
- Other⁵ _____
- None (please initial if none)** _____

- 7) LCMEI will utilize this financial disclosure information to identify and resolve conflicts of interest, per the LCMEI Policy on Identification and Resolution of Faculty Conflicts of Interest with Commercial Entities, posed by any individual who is in a position to control the content of a LCMEI-accredited CME activity.

Name (please print)

Signature

Definitions

1. An individual (and their spouse or partner) who is in a position to control the content of the educational activity. Such individuals include, but are not limited to: Editor-in-Chief, Associate Editor, CME Editor, Planning Committee member, freelance writer, author, LCMEI employee, contributor, joint sponsor personnel, and vendor.
2. "Relevant" financial interests or relationships are defined as receipt of funds by the individual (and his/her spouse or partner) in any amount over the past 12 months directly from a commercial interest whose products or services are discussed in or pertain to the content of the educational activity. For purposes of LCMEI identification and resolution of conflicts of interests, disclosure of "relevant" financial interests or relationships are further delineated as "past" (any interests or relationships over the past 12 months) and "current" (any interests or relationships in place and/or active at the time of the individual's involvement in the CME activity).
3. "Commercial Interests" are defined as any proprietary entity producing health care goods or services consumed by or used on patients, with the exemption of non-profit or government organizations or non-health care related companies. Providers of clinical service directly to patients are NOT commercial interests.
4. "Grant/Research Funding" is defined as funds that are received from a commercial company by an individual for research or clinical trials and/or educational purposes. Grant/research funding where the medical institution or medical university/school receives a grant from a commercial entity and manages the funds and the person is the principal or named investigator on the grant must be disclosed by the individual or to activity participants.
5. "Other" relationships include ownership interest, employment (including Board positions), royalties, intellectual property rights, and honoraria (excluding funds received for faculty participation in an accredited CME activity).
