What Is *Postgraduate Obstetrics & Gynecology*?

Postgraduate Obstetrics & Gynecology is a biweekly publication for continuing education in obstetrics and gynecology. The 6-to 8-page newsletter provides in-depth coverage of current topics to keep physicians up to date on the diagnosis and treatment of obstetric and gynecologic conditions.

How Should Manuscripts Be Prepared?

- Prepare manuscripts, including tables and figure legends, using commercially available word-processing software. Provide references, tables, and figure legends after the text. The word count for the manuscript is 4500 words, not including figures or tables.
- Include a separate title page with the name, address, e-mail address, and telephone and fax numbers of the author responsible for correspondence with the editorial office and review of page proofs.
- Begin each article with three learning objectives. Provide 10 Continuing Education questions at the end of the document (see Continuing Education Quiz, below).
- Cite references, numbered consecutively throughout the text, and format according to AMA/Index Medicus style. Please do not use the endnote or footnote functions in Microsoft Word to formulate the reference list. In general, manuscripts should not contain more than 30 references. Because of space limitations, try to limit references to critical sources.
- Submit manuscripts and figures either electronically (via e-mail) or mailed, with accompanying discs, to the Editors.
- Authors are required to obtain permission to reproduce any figures or tables that originally appeared in other sources. Submit written permission from the copyright holder with the manuscript.
- Accepted articles will be processed electronically. In addition to a word-processing file that contains all final text, tables, and figure legends to be published, authors should submit figures as separate JPEG or TIF files. Authors will receive page proofs to review in Adobe PDF format (see below).

How Should the Continuing Education Quiz Be Prepared?

Each article will be published with a Continuing Education quiz consisting of 10 multiple-choice questions. Authors should provide these questions and answers with the finished manuscript. Each question must have only one correct answer, and each answer must be clearly supported by the text.

Are Author Disclosure Forms Necessary?

All authors must sign an Author Disclosure form prior to publication. This form will be sent from the editorial office and must be returned prior to publication. Articles will not be published without this documentation.

What About Copyright Assignment?

All authors must sign a Copyright Assignment form prior to publication. This form will be sent from the editorial office and must be returned prior to publication. Articles will not be published without this documentation.

How Does the Production Process Work?

The publisher will send page proofs via e-mail for review to the corresponding author. (All articles must be accompanied by an e-mail address for the corresponding author; see Preparation of Manuscripts, above.) The page proofs will be sent in Adobe PDF format containing all text and artwork. The corresponding author must review the proofs, answer editorial queries, and return corrections by e-mail or by fax to the publisher (206-600-5058) within 72 hours of receipt.

How Are Honoraria Paid?

An honorarium will be paid for each article published in *Postgraduate Obstetrics & Gynecology*. An Author Payment form will be sent from the publisher, to be returned with corrected page proofs. Payments may be paid to one author or split among authors. In addition, 10 copies of the article and a complimentary one-year subscription to the publication will be provided to one author of each article.
